Ms. Donna L. Powauke
Nez Perce Tribe
P.O. Box 365
Lapwai, Idaho 83540-0365

Dear Ms. Powauke:

TRANSMITTAL OF RISK EVALUATION OF REMEDIAL ALTERNATIVES (RERA) FOR THE HANFORD SITE, DOE/RL-93-54, REV. 0

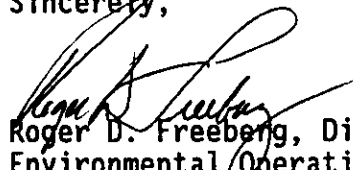

Attached are copies of DOE/RL-93-54, "Risk Evaluation of Remedial Alternatives for the Hanford Site, Rev. 0."

The RERA for the Hanford Site is a basis for agreement on evaluation of the risk of remedial alternatives. The document identifies points in the remedial action process where risk assessment is either required or beneficial and discusses risk assessment methods to be used during the implementation of remedial alternatives. The RERA is a companion document to the "Hanford Site Risk Assessment Methodology," DOE/RL-91-45, Rev. 3.

Draft A of RERA was provided to the State of Washington Department of Ecology, U.S. Environmental Protection Agency, the Tribes and other Hanford Natural Resource Trustee Council members. All comments received were responded to and have been incorporated into this Rev. 0 of the RERA.

If you have any questions concerning this matter, please contact Mr. Randy Brich at 509-376-9031.

Sincerely,

Roger D. Freeberg, Director
Environmental Operations Division
